from the Capitals of Europe

**Prague Appeal from Coimbra Group, EUROPAEUM, LERU, UNICA
and Charles University**

*On the occasion of Rectors' Conference "University and the Republic: 100 years
of Czechoslovakia/Czech Republic", Charles University, Prague, 24-25 October 2018*

As European organisations of universities, we express our concern regarding recent political developments and discussions, potentially leading to a division of the existing European Education, Research and Innovation landscape and its associated EU funding schemes.

We want to stress that the European Education and Research Areas can only develop and flourish further by remaining open to cross-border and international cooperation, regardless of the local political situation and constraints. This includes the mobility of students, teachers, researchers, academic staff and their families, as one of the crucial elements of open and excellent European Education and Research Areas.

We call on the EU decision makers to ensure that the future European programmes, Erasmus and Horizon Europe, will continue to allow, and even further develop, Education and Research agreements with non-EU countries. In particular, a "Europe First" approach is genuinely undesirable.

We believe that open European Education and Research Areas are the only solution to address both European and global challenges to the benefit of citizens and democratic societies.
